**FIRE LOSS GREATER THAN AT FIRST THOUGHT**

H. F. & A. J. Dawley's Loss Between \$12,000 and \$15,000—Water Put on All Day and Fire Not Out Until Wednesday Evening.

After looking over the result of the fire at the home of H. F. Dawley on Tuesday night, H. F. Dawley stated on Wednesday that his loss as estimated Tuesday night was much too small, and instead of losing about 100,000 feet of cyprus and pine boards the amount will be about 125,000 feet, and the value from \$12,000 to \$15,000, partially covered by insurance.

Both lined and hose were kept busy all night Tuesday and some on Wednesday morning, while one stream was played on the ruins all day and not until six o'clock at night Wednesday was the fire out so that the pump was stopped. The line of hose is still laid in case of further need.

Mr. Dawley is satisfied the fire started in the drying shed and his first estimate was on the pile of boards next to the mill, but another large pile in back also caught, doubling the amount at stake. By pulling over the pile which was done on Wednesday, some of the boards were saved, but charred ends and sides, but he states it is doubtful if they are worth anything. Two teams were kept busy moving material across the track on Wednesday.

The charred boards on the north end of the mill have been torn off and will be replaced today. The mill is not affected and will probably be started up this morning. It has not been fully decided what will be done about replacing the burned building. Messrs. Dawley feel deeply grateful to Chief Stanton for the services the department rendered and for the loan of the hose which made the fighting of the fire possible and no doubt saved a much greater loss. Also to Superintendent Pollock of the Norwich State hospital for the long use of the large pump in the institution's power house, which was the only protection at hand and which after the loan of the hose had been secured furnished the necessary water to extinguish the fire. It is no doubt saved a much greater loss.

Understanding that the fire was out, Chief Stanton went to the mill Wednesday morning and brought back 900 feet of hose, leaving the other line for further protection. Louis J. Hoos, one of the firemen, was slightly injured by the auto truck at the hospital just as he alighted from the auto carrying the hose. He was able to get about, however.

**INTERESTING PAPERS BEFORE D. A. R.**

**December Meeting of Faith Trumbull Chapter Held at Norwich Club—Musical Programme and Refreshments.**

The regular monthly meeting of Faith Trumbull chapter, D. A. R., was held Wednesday afternoon at the Norwich club. The regent, Mrs. William G. Henderson, presided. Besides the usual reports and business, letters of thanks from Mrs. Robertson, Mrs. B. P. Bishop and Mrs. N. L. Bishop were read by the historian, Mrs. E. W. Hyde. Miss Winifred Young of Taunton sang in pleasing style "Whirl Whirl My Lavender," by Edward German, and Daisies, by Hawley, for her encore number. Mrs. George A. Keppeler read an interesting paper on "The Steamboat Giving Customs" beginning with the first Thanksgiving at Plymouth in 1621. She depicted the picture presented by the 50 Pilgrims and their Indian guests and the feasting upon oysters, fish, ducks, venison, partridge, turkey, barley cakes, corn meal and vegetables. This resembled the harvest festival of Europe. The first Thanksgiving proclamation was issued in Boston in 1621. National ones have since been issued in the presidents since Lincoln.

Miss Phebe Brewster read from R. H. Schaffner's book the story "An Old Time Thanksgiving," being the letter of a girl written in 1779 and giving in detail the story of Thanksgiving at her home, which made an interesting picture of the difference between that time and the present. Mrs. James L. Case read the paper of Mrs. J. William Bailey of Middletown on Education, Manners and Customs of Children in Old New England. They were an entirely different species from the modern child. The first public school was established in Massachusetts in 1642. The New Englander became the principal book of study in 1690. The catechism must also be learned by heart. Later arithmetic was added to the course of instruction. Girls did not have schools until the nineteenth century. Two other charming musical selections were given by Miss Young—Gounod's "Spring" and Schubert's "Flower Rain," the latter being repeated by request. Mrs. Coxeter accompanied. Miss Angie L. Stanton read an interesting and instructive paper upon John Fitch, Connecticut's steamboat inventor. He was born in Windsor in 1642. As a small boy he was a precocious scholar, although he did not receive formal education for learning. He had a hard life and many discouragements and never had due recognition for the invention of his steamboat. He worked at many trades and was a pioneer of the Indians in Canada at one time. His first steamboat was a tiny affair, four feet long by one foot wide, with a miniature engine. The second was larger and attracted crowds to the Delaware river. But the boiler burst and the boat was wrecked. His third one was still larger and greatly improved and made weekly trips with passengers on the Delaware river in the summer of 1790—the first practical steamboat in the United States. Many things conspired to give this only local interest and in time forgotten, while his plans were later perfected by Robert Fulton and used more widely. After the meeting tea was served by social opportunities for learning. Mrs. Allen E. Bidwell was chairman.

**REVISED PAY FOR OFFICERS AND ENLISTED MEN.**

That for Officers Corresponds to the Regular Army.

The revised table for the pay of officers and enlisted men of the U. S. N. G. is published in general orders issued from the adjutant general's office. The pay of officers corresponds to that of officers of the regular army. That of enlisted men varies.

The enlisted men of the national guard are to have a chance to obtain additional pay through the allowance made for those qualifying as sharpshooters, expert riflemen or expert pistol shots. Men qualifying as sharpshooters will receive \$1.00 per month; as expert riflemen, \$1.00 per month; as expert pistol shots, \$1.00 per month. Coast artillerymen for qualification as gunners, second class, \$1.00 per month; as gun pointers, gun commanders, second class observers, chief planters and chief loaders, 75 cents; as planters, 50 cents; as observers, 40 cents; as gun pointers, gun commanders, second class observers, chief planters and chief loaders, 75 cents; as planters, 50 cents; as observers, 40 cents. No enlisted man shall receive pay for more than one of these qualifications.

Mechanics will receive \$1.75 per day instead of \$2. First sergeants and quartermaster sergeants will receive \$2.50 as before. Bandmen will be paid \$4 per day. The pay of privates will be \$1, corporals \$1.75 and privates \$1.50.

The highest paid officer of the U. S. N. G. is the brigadier general, who receives \$14.75. The other officers receive the following: Colonel, \$11.11; lieutenant colonel, \$9.72; major, \$8.33; captain, \$6.67; first lieutenant, \$5.56, and second lieutenant, \$4.72.

**QUE PIN TOURNAY**

**OPENS AT Y. M. C. A.**

Horace Coyle in the Lead Among Twenty-two Entries.

A que pin tournament at the Y. M. C. A. with twenty-two entries, has Horace Coyle well in the lead at the present time, as he has lost but one game out of 15 played. Walker and Palmer follow in the order named. Walker now has the record high single for the tournament, rolling 159, which beat out a score of 155 held by Lord and Coyle. The other scores are the scores on games won and lost: Coyle 12-1, Walker 5-2, Palmer 4-3, Bruce 5-1, Jackson 1-3, Ellis 3-4, Coburn 3-2, Hotchkiss 1-1, Leaven 1-2, Rev 3-1, Corcoran 2-1, Fosberg 1-1, Ellsworth 2-7.

Physical Director Bandlow and Assistant Secretary Hyde expect to start Friday morning from here with their delegation of twelve juniors who will attend the state convention in New Haven. The junior team has been drilling hard in preparation for the contest for the Gall R. Munson cup, and are hoping that they will return with it this time.

Last year they lost it only by a narrow margin. The squad comprises a good proportion of those who competed a year ago. The following will represent Norwich in the competition, which takes place Saturday night: Benjamin Bruce, J. S. Rickerts, C. LeRoy Storms, Horace Coyle, Charles D. Prentice, J. Russell Smith, Richard Young, Myron Jackson, Earl London, Franklin Lord, Francis Fosberg and Clarence Whitaker.

**SHOPPING MADE EASY.**

How to Lighten the Burden of Holiday Choosing—Early Comers the Real Wise Ones.

Only fourteen days left! The time for Christmas shopping grows shorter, and there is much to be done.

Why not begin today? Early comers have the best chance not only of securing the stock when it is first put out, but of receiving undivided attention of clerks before they have grown tired and nervous with the strain of the last few days.

It is the policy of wisdom to go about the holiday buying in a systematic way. Much of the real selection can be done in one's own home. A list of those to whom one plans to make presents, a careful study of The Bulletin's advertising columns for ideas as to articles and prices, check off the list, visit the well stocked stores, make one's selections without delay, and Christmas shopping will be a pleasure and not a trial.

Try this plan today, and learn how admirably it works!

**HAILE CLUB DINNER.**  
Large Attendance and Many Present at Gym Exhibition.

An overflowing patronage for the Wednesday evening dinner at the Haile club restaurant this week caused a number to be turned away, but those who enjoyed the fine menu provided had an added pleasure later in the evening when they attended the first class night in the gymnasium. In addition to the regular class of twenty-five under Miss Mary McKay, all the club members who cared to do so were on the floor and took part in the programme. This was carried out in very commendable form and earned many deserved compliments for the capable instruction given by Miss McKay. The visitors' night by the gymnasium class took the place of the usual musical programme which follows the midweek dinners and will be repeated at intervals through the season. The programme began with the grand march, including the class and club members, followed by some interesting apparatus work by the class, a game of football by the class and club members, and a pretty folk dance, called "How Ho You Do," in which the class and club members participated.
